Obstetrics Gynecology-Shelf Specialty Review and Study Guide Offers an introduction to American history between 1890 and the beginning of the First World War that addresses such issues as the emergence of the progressive movement, the expanded role of government, the measures implemented to bring political parties under control, and the role of women.

British Policy Towards the Ottoman Empire, 1908-1914 Germany's Schlieffen Plan of the First World War is much talked of but little understood. Translations of primary sources recently available clarify the issues involved.

America in the Progressive Era, 1890-1914 This is the first full academic study of the political thought of the French regionalist movement in the Belle Epoque. Julian Wright has examined the private papers of Jean Charles-Brun, founder of the Federation Regionaliste Francaise, in detail. He has rethought the conceptual basis of regionalism through Charles-Brun's intellectual biography, showing that it penetrated the political debates of the period as a commonplace in Republican arguments about state reform. Despite the often made association of regionalism with the right, Dr Wright reveals the diversity of political views expressed, and demonstrates that the connection to left-wing federalism was emphatically present in the intellectual background. Interwoven with this discussion is an examination of the personal mission of Charles-Brun. He saw himself as a reconciler, using his regionalism within a mission to heal the divisions of French politics and society. He argued that France's instability stemmed from an obsession with reforms that followed a priori political models, and that politicians who sought to rethink the shape of the Republic needed to attend to the cultural or economic realities expressed in France's regions. Charles-Brun and his regionalist movement continue to have resonance in current debates about decentralization in France.

Imperial Germany and the Great War, 1914-1918
Get Free 1914 Present Study Guide Answers

British War Aims and Peace Diplomacy, 1914-1918 This important new contribution to the successful textbook series New Approaches to European History explores the comprehensive impact of the First World War on Imperial Germany. It examines military aspects of the conflict, as well as the diplomacy, government, politics and industrial mobilization of wartime Germany. Unlike other existing surveys, Roger Chickering also offers a rich portrait of life on the home front: the war's pervasive effects on wealthy and poor, men and women, young and old, farmers and city-dwellers, Protestants, Catholics, and Jews. At the same time, Roger Chickering analyzes the growing burdens of war and discusses the translation of the hardship of war into political opposition. This excellent, well-illustrated study of the military, political and socio-economic effects of the First World War will be essential reading for all students of German and European history, as well as for those interested in the history of war and society.

Princeton Review AP European History Prep 2021 For most of his life, Ernst Jünger, one of Europe's leading twentieth-century writers, has been controversial. Renowned as a soldier who wrote of his experience in the First World War, he has maintained a remarkable writing career that has spanned five periods of modern German history. In this first comprehensive study of Jünger in English, Thomas R. Nevin focuses on the writer's first fifty years, from the late Wilhelmine era of the Kaiser to the end of Hitler's Third Reich. By addressing the controversies and contradictions of Jünger, a man who has been extolled, despised, denounced, and admired throughout his lifetime, Ernst Jünger and Germany also opens an uncommon view on the nation that is, if uncomfortably, represented by him. Ernst Jünger is in many ways Germany's conscience, and much of the controversy surrounding him is at its source measured by his relation to the Nazis and Nazi culture. But as Nevin suggests, Jünger can more specifically and properly be regarded as the still living conscience of a Germany that existed before Hitler. Although his memoir of service as a highly decorated lieutenant in World War I made him a hero to the Nazis, he refused to join the party. A severe critic of the Weimar Republic, he has often been denounced as a fascist who prepared the way for the Reich, but in 1939 he published a parable attacking despotism. Close to the men who plotted Hitler's assassination in 1944, he narrowly escaped prosecution and death. Drawing largely on Jünger's untranslated work, much of which has never been reprinted in Germany, Nevin reveals Jünger's profound ambiguities and examines both his participation in and resistance to authoritarianism and the cult of technology in the contexts of his Wilhelmine upbringing, the chaos of Weimar, and the sinister culture of Nazism. Winner of Germany's highest literary awards, Ernst Jünger is regularly disparaged in the German press. His writings, as this book indicates, put him at an unimpeachable remove from the Nazis, but neo-Nazi rightists in Germany have rushed to embrace him. Neither apology, whitewash, nor vilification, Ernst Jünger and Germany is an assessment of the complex evolution of a man whose work and nature has been viewed as both inspiration and threat.
The Struggle for Asia, 1828-1914 Exploring the emergence of the modern American theatre in New York during a period of immense creative output and experimentation and against a backdrop of conflicting cultural, economic and political events, this text draws upon material from plays and productions in between 1914-1929.

Making War, Forging Revolution In his discussion of political, economic, and ideological questions, Blumenthal emphasizes the period since 1870, and in his analysis of expansionism, colonialism, imperialism, and political strategy, he relates Franco-American diplomacy to the interactions of Great Britain, Russia, Germany, Japan, and other powers. This book is essential for an understanding of contemporary relations between France and America. Originally published in 1959. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

France and the United States; Their Diplomatic Relation, 1789-1914 Drawing on a wide range of sources, the book argues that the moral collapse of Germany was due less to the failure to disseminate propaganda than to the inability of the military authorities and the Kaiser to reinforce this propaganda.

Competition and Coercion Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

The Praxis Series Middle School Social Studies Study Guide (ebook) Spain 1914-1918 explores a crucial episode in the history of Spain and of Europe. Romero offers insightful analysis of a society in transition from tradition to modernity, and from oligarchy to mass politics.
Germany, Propaganda and Total War, 1914-1918 M S Anderson explores the major aspects of European history from the Congress of Vienna to the First World War. This is not a narrative of political or other events; rather, it is a series of thematic studies on a comparative and continent wide basis.

Patriotic Pacifism AP European History Prep, 2021, previously titled Cracking the AP European History Exam, provides students with everything they need to conquer the exam. The book includes instructional content structured around the investigation of 5 course themes and 19 key concepts; content reviews divided by the test's four different chronological periods; drills and questions that reflect a greater emphasis on "historical thinking skills," represented by a larger proportion of essay, document-based, and short- and long-answer questions on the exam; and 2 full-length practice exams with complete answer explanations. For the 2021 edition, we are adding a brand-new practice test for a total of 3 exams (all in the book.)

Workers, Peasants, and Economic Change in the Ottoman Empire, 1730-1914

Princeton Review AP European History Prep, 2022

The Regionalist Movement in France, 1890-1914 This unique volume offers a definitive new history of European economies at war from 1914 to 1918. It studies how European economies mobilised for war, how existing economic institutions stood up under the strain, how economic development influenced outcomes and how wartime experience influenced post-war economic growth. Leading international experts provide the first systematic comparison of economies at war between 1914 and 1918 based on the best available data for Britain, Germany, France, Russia, the USA, Italy, Turkey, Austria-Hungary and the Netherlands. The editors' overview draws some stark lessons about the role of economic development, the importance of markets and the damage done by nationalism and protectionism. A companion volume to the acclaimed The Economics of World War II, this is a major contribution to our understanding of total war.

Understanding by Design Reinterpreting the emergence of the Soviet state, Holquist situates the Bolshevik Revolution within the continuum of mobilization and violence that began with World War I and extended through Russia’s civil war, thereby providing a genealogy for Bolshevik political practices that places them clearly among Russian and European wartime measures.

Cracking the AP European History Exam 2019, Premium Edition This book represents an attempt to catalog all the aircraft carriers that have seen service in the world's navies, together with the designs that, while not realized, have had a significant
influence on the technical evolution of the type or on the design of subsequent vessels within a particular navy.

Princeton Review AP European History Premium Prep, 2021

The Encyclopaedia Britannica Provides test-taking strategies, a subject review, and two full-length practice tests.

Spain, 1914-1918 Cracking the AP European History Exam, 2020 Edition, provides students with everything they need to conquer the exam. The book includes instructional content structured around the investigation of five course themes and 19 key concepts; content reviews divided by the test's four different chronological periods; drills and questions that reflect a greater emphasis on "historical thinking skills," represented by a larger proportion of essay, document-based, and short- and long-answer questions on the exam; and 2 full-length practice exams with complete answers.

Aircraft Carriers of the World, 1914 to the Present Competition and Coercion: Blacks in the American economy, 1865-1914 is a reinterpretation of black economic history in the half-century after Emancipation. Its central theme is that economic competition and racial coercion jointly determined the material condition of the blacks. The book identifies a number of competitive processes that played important roles in protecting blacks from the racial coercion to which they were peculiarly vulnerable. It also documents the substantial economic gains realized by the black population between 1865 and 1914. Professor Higgs's account is iconoclastic. It seeks to reorganize the present conceptualization of the period and to redirect future study of black economic history in the post-Emancipation period. It raises new questions and suggests new answers to old questions, asserting that some of the old questions are misleadingly framed or not worth pursuing at all.
